PROFESSIONAL EXPERIENCE

Full Stack (MERN) – Internship (6 months)

Onetick Technologies Private Limited

- Collaborated with the development team to build and enhance web applications using JavaScript, React.js, and Tailwind CSS. Contributed to the development of user interfaces with a focus on performance, usability, and responsive design. Implemented RESTful APIs and managed data using Axios and state management tools like Zustand. Participated in daily stand-ups, code reviews, and sprints to ensure smooth project delivery within deadlines.

PROJECTS

ShopEase (E-Commerce website)

- Developed ShopEase, an e-commerce platform offering a seamless shopping experience with a user-friendly interface, secure checkout, and extensive clothing selection for men, women, and kids.
- Technology used:** React.js, State Management: Zustand (for global state management and sharing data across components), Styling: tailwind.CSS, Node.js, Express Database: MongoDB

FoodZilla web app

- Show a list of restaurants based on the user's location
- Display the menu of a selected restaurant.
- Fetch detailed menu items from the Swiggy API
- Technology used:** React.js, Styling: tailwind.CSS, State Management: Redux Toolkit (for global state management and sharing data across components).

In development: WIZTIE web app.

- Create a platform for students to showcase their completed projects.
- Allow students to create and manage their projects.
- Technology used:** React.js, Styling: tailwind.CSS, State Management: Redux Toolkit (for global state management and sharing data across components), Node.js, Express Database: MongoDB

Acting School web app || Weather web app || Todo-list
